Parent Engagement Corner

Parents,

As testing time approaches, it is now more important than ever to work with your student at home on skills learned in class. Please read over the test taking tips in this month's newsletter to help give you some ideas on ways you can prepare for standardized testing at home.

As always, please feel free to contact me any time if you need support or information on how to improve your child's academic performance in school. You can reach me at (770)229-3760 or tiana.fowler@gscs.org

Did You Miss...?

In March, we held the Comprehensive Needs Assessment (CNA) and School Improvement Plan (SIP) stakeholder meetings.

We reviewed and revised the CNA and SIP. We discussed Georgia School Performance Standards, strengths, challenges based on trends and patterns, overarching needs and root causes. We also discussed improvement goals and action steps. Stakeholders were given an opportunity to give feedback.

If you missed the stakeholder meetings but would like the information presented, you may watch a video clip at <http://bit.ly/KRMSMarchStakeholdersMeeting> or please contact Tiana Fowler at (770)229-3760 or tiana.fowler@gscs.org.

Georgia Milestones

The Georgia Milestones Assessment System (Georgia Milestones) is a comprehensive summative assessment program spanning grades 3 through high school.

Georgia Milestones measures how well students have learned the knowledge and skills outlined in the state-adopted content standards in English language arts, mathematics, science, and social studies.

Students in grades 3 through 8 take an end-of-grade assessment in English language arts and mathematics. Students in grade 5 are also assessed in science and students in grade 8 are also assessed in science and social studies. High school students take an end-of-course assessment in Algebra I, American Literature, Biology and U.S. History as designated by the State Board of Education.

Features the Georgia Milestone Assessment System include:

- Open-ended (constructed-response) items in English language arts and mathematics (all grades and courses);
- A writing component (in response to passages read by students) at every grade level and course within the English language arts assessment; and
- Norm-referenced items in all content areas and courses to complement the criterion-referenced information and to provide a national comparison
